

Because there is NO time to waste!

“...The people who have died from HIV died not from the causes listed on their death certificates, but in fact, from wasting — starvation from within.”

Dr. Mary Romeyn, M.D.

Urge your State & Federal Legislators:

Support programs to help combat unintentional weight loss:

- ✚ More anti-wasting drugs and nutritional supplements on the CADAP and Medicaid formularies.
- ✚ More support for nutritional and complimentary care programs.
- ✚ More support for programs and services for early screening and prevention of unintentional weight loss.
- ✚ Standards of care for people with HIV/AIDS in hospital and clinic settings including body composition analysis, muscle mass and weight management.
